

Are You Tired Of Paying Too Much For Your Prescriptions?

North Florida Medical Centers, Inc. (NFMC) can help. We teamed up with several local pharmacies to offer discounted pricing on medications. Through the federally funded 340B Drug Discount Program, we purchase many medications at reduced costs, which means we can pass the savings on to you!

Prices vary, but your medications may be available for a considerable discount! There are no income requirements to qualify.

How do I get started?

First, you must be a patient at any NFMC location.

- An NFMC medical or dental provider will send the prescription directly to the participating pharmacy. (Electronic prescriptions are quicker & safer than handwritten prescriptions.)

Are all drugs included?

Virtually all medications are included and qualify for the cost savings.

Can I transfer existing prescriptions?

Yes! You may transfer any existing prescriptions. However, the prescription must be written by an NFMC provider in order to qualify for the 340B Drug Pricing Program.

To transfer your prescription, contact one of the participating pharmacies below and provide the staff with your prescription number and the name of the pharmacy where the prescription was previously filled. Their friendly staff will easily arrange the transfer for you.
